Outdorable®
Lasts for good

ABOUT US

At Outdorable, we believe that the best learning happens outdoors, in spaces that invite curiosity, movement, and connection. For over 20 years, we've worked alongside educators to design furniture and equipment that transforms outdoor environments into rich, open-ended learning landscapes.

Family-owned and based in Nelson, New Zealand, Outdorable is now trusted by early childhood centres and schools in over six countries worldwide. Our products are crafted with care, using 100% sustainably sourced natural materials, and inspired by the textures, tones, and rhythms of nature.

Our flagship modular play system is the world's most configurable outdoor play equipment. Designed to grow with your space, your pedagogy, and your children. It's inclusive by design, with a special focus on supporting children aged 0–6 years, including those with sensory and developmental needs.

WHY OUTDORABLE?

Nature-inspired design that supports emotional regulation and creativity

Unique innovations in open-ended play and outdoor learning

Premium materials that are safe, durable, and environmentally responsible

Configurable systems that adapt to any space or curriculum

A deep commitment to educators, children, and sustainable futures

Whether you're creating a sensory retreat, a loose parts wonderland, or a full outdoor classroom, Outdorable is here to help you bring your vision to life, beautifully, ethically, and playfully.

Child-led, open-ended flexible play environments with natural products that last for good.

View our full range online at outdorable.com/outdorable-play-equipment/

25 year timber guarantee

Outdorable® weatherproof timber is guaranteed for 25 years not to twist, shrink, warp or rot! It lasts for good - naturally.

Full safety certification

All Outdorable® play equipment is safety certified for supervised ECE when used accordingly to our user's handbook.

Flexible configurations & creative challenges

Movable play inspires boundless configuration ideas. Create tunnels, hide-outs, bridges, boats and more with our modular Beaverlodge climbers.

Make the greenest choice

Our timber holds all the eco-labels you could ever wish for. Certified: Cradle to Cradle gold level, FSC®, BREEAM and LEED.

Encouraging physical & mental development

Stimulates imaginative play, gross motor skills using upper and lower body strength, hand-eye coordination, balance and spatial awareness.

Looking for outdoor inspiration?

**CHOOSE WOOD.
FOR THE PLANET.
FOR PLAY.
FOR GOOD.**

Real wood. Unreal performance.

Our dedicated team of experienced designer's struck gold with a world-leading modified timber technology process. Accoya® turns fast-growing, sustainable timber such as New Zealand Radiata pine, into stable, non-toxic material with performance guarantees exceeding that of any hardwood or timbers treated with nasty chemicals. Accoya® wood is safe for children and the environment just like untreated wood. Accoya® has unmatched durability and resilience against moisture resulting in weatherproof timber which requires minimal maintenance to withstand the 'splash and bash' rigours of early childhood environments.

Throughout the lifecycle of your playground, resources used in PVC and Aluminium deplete whereas the Radiata pine tree used in Accoya® has regrown and harvested twice. Accoya® has the lowest carbon footprint and is at home in a fully circular economy. C2C Gold Certified:

Bio-based, non-toxic, recyclable and based on an infinite, fast-growing resource.

Why is wood the greenest choice?

The manufacturing process of other materials such as PVC, steel and aluminium use non-renewable resources causing an increasingly negative impact on our environment. These materials require significant amounts of energy in manufacturing. In contrast, the production of sustainably sourced wood such as Accoya® is endlessly renewable and only requires a fraction of the energy.

BREEAM®

Outdorable Sand & Water 3 Piece Set

Order# 16508

Recirculating water pump that's hand powered by the children for the most popular water play experience ever.

Recycled river rock water diverters for added water play experience. Looks and feels just like real rock.

Children can spend countless hours playing with water, but wait till you add our new sand and water play set to your water play area. Watch as the children pour water down the slope into the tub. Various water diverters are situated along the way to create added learning experience as they dam up the flow with sticks and rocks and leaves. Adding extra buzz to this set's River Bed is our child-friendly hand water pump. Just attach the pick-up hose provided to the outlet on the water tub, and you've got a recirculating flow of water. The pump is hand-powered by the children for the most popular water play experience ever. Let them fill containers and pour them back into the tub. This large set promotes teamwork and sharing, along with many more positive aspects of development and learning. This standalone unit requires no fixing. Just push up to the other water tables and start playing.

Items included in this package	Code	Qty
A. River Bed	16037	1
B. Double Water Table 600H	16031	1
C. Single Water Table 450H	16030	1

Outdorable Infant Gross Motor 5pc Package

Order# 16511

Items included in this package	Code	Qty
A. Infant Gross Motor Riser 150mmH	16010	2
B. Infant Gross Motor Incline	16015	1
C. Infant Gross Motor Burrow	16016	1
D. Infant Gross Motor Log Crawler	16017	1

0-2yrs

Specifically designed for infants from 0-2 years as they learn some of life's most significant skills. Like our other designs, these items are also available as individual pieces. Fully interchangeable to allow creating multiple configurations. All items are interlocking using the same connection slots as our larger Beaverlodge climbing sets. Gross motor skills are critical to enabling children to perform everyday functions, such as walking and running, climbing and catching, throwing and hitting a ball. However, these are also crucial for daily self-care skills like getting dressed, getting into bed, climbing stairs or getting in and out of a car. Putting toys away and navigating around objects in the classroom and on the playground on different slopes and surfaces. Gross motor abilities also influence other everyday functions. For example, a child's ability to maintain appropriate tabletop posture (upper body support) will affect their ability to participate in fine motor skills like writing and craft, cutting paper etc. Also sitting upright with good back posture to listen to the teacher's instructions, which in turn has a direct impact on their future learning.

The two trapezoidal shape platforms (pictured as a hexagon) are only 150mm high, which makes an excellent riser for infants. You can easily add more risers together to create a larger platform. The Incline Ramp is nice and wide with a gentle slope for infants to learn on. The Log Crawler provides a more challenging experience as infant's progress. With smooth dowels stretched across a curved ramp, the log crawler is one of the favourites. The Burrow with peepholes creates a small tunnel for children to develop spatial awareness.

Outdorable Toddler Play Package

Order# 16500

Smooth rounded bevel edges

2-3yrs

This collection of climbers and challenge planks gives you the essentials to set up a versatile and challenging adventure to encouraging children's physical and mental development.
